U.S. to Appeal Judge's Ruling On Exner Data

SAN DIEGO, April 21 (UPI)—The government said today it will appeal a judge's decision ordering the FBI to turn over files by next Tuesday to Judith Campbell Exner, who claims she had a personal relationship with President Kennedy.

U.S. District Court Chief Judge Edward J. Schwartz Tuesday denied a government motion for delay after hearing arguments by assistant U.S. Attorney John R. Neece and Richard Leonard, representing Exner.

The FBI said it had thousands of requests for information and would not give preferential treatment to Exner, involved in publication of a book on her relationships with Kennedy and mobster Sam Giancana.
